Headline: "TWO GOOD ONES" (Conductor and soloist)

Translator: G. Sveinbjarnardóttir

Mechanical - not at all.

It was the soloist who carried the major responsibility in the Chopin work. His performance in the Andance movement was characterized by a profound softness, and in the Polonaise one got the full taste of his unique skill. The Prokofiev concerto received a marvellous display of technical brilliance from the planist and the conductor made sure there was good rapport between the soloist and orchestra.

Pianists of Woodward's calibre are rare indeed. There are pianists who can play works like the Prokofiev concerto, performed here, with perhaps equal skill, and I do not know what it is in Prokofiev's music which seems to force many, particularly pianists, to play his music mechanically. But the word mechanical does not exist in Woodward's wocabulary. His performance was magical and he captivated the audience.
